## EDUCATION

**National University of Singapore | Computer Science**

**Aug 2018 - Present**

Scholarship: Wee Cho Yaw Future Leaders Award (Bond-free)

Expected Date of Graduation: May 2022

Current Cumulative Average Point: 4.4/5.0

Relevant Coursework: Programming Methodology, Programming Methodology II, Discrete Structures, Data Structures & Algorithms

## WORK AND INTERNSHIP EXPERIENCES

**Singapore Armed Forces | Lieutenant (Signal)**

**Dec 2016 – Nov 2017**

- Appointed to command and lead a platoon of 50 men in Signal Institute.
- Spearheaded an initiative using VBA to automatically churn out data entry work.
- Implemented an indent list generator that saved up to 100 man-hours a week.

**GovTech Singapore | GeekOut Participant**

**Jun 2018 – Jul 2018**

- Attended a course on Data Science, AI, HTML/CSS/JS and C++
- Gained a better understanding of how to analyze and create systems in order to accomplish tasks in the form of coding a robot car with Arduino to overcome obstacles in a course.
- My team's car eventually placed amongst the top 3 in terms of precision and speed.

## NOTABLE CO-CURRICULAR ACTIVITIES

**Catholic High Students' Council | Vice President**

**Jun 2012 – Jun 2013**

- Orchestrated and directed the organization of major school events for 1,200 students.
- Directed the revamp of a whole new Orientation structure to integrate 300 new students.
